

What You Have Made Possible

Donors like you have enabled IPC to provide self-development grants and scholarships to immigrants from around the world.

"My children are all citizens and I also wanted to have a voice in America," said **Estela** from Mexico. She received a grant from IPC to help her apply for U.S. citizenship.

Lexxi, an immigrant from Indonesia, received a tuition grant from IPC to continue her study in Business Administration at Arapahoe Community College.

Ola, an Iraqi refugee, finished her degree in Biochemical Engineering at the University of Denver with the help of an IPC grant. Ola's father lost a limb during the Iraqi war. Her goal is to design prostheses for similar patients.
